Tom,
Need the text. I need to send the revised version to Joel before 3 pm.
Thanks,

Ana

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP) Could you add it to the version OGC sent? And then I'll copy to a master redline I'm developing.

Thanks,
Ana

The takeaway is that the answer as drafted won't really change, but I can provide some process detail responses (and lack thereof) to the requests from ACC.

Do you know if this is OGC tracking the back-and-forth – or – do they want us to alter the reply? If it's the latter, there really isn't much to say beyond the current answer.

Tom,
OGC is asking again about the request for reconsideration to correct the 2014 TSCA Work Plan for phthalic anhydride. (see line 760). Do you have an answer to that?
Thanks,
Ana

Thanks Anna. I just saw her comment that was inferring that we would be editing the dossiers to add new reference material. As you know, we are not doing that but will consider information during scoping. OGC also had good catches that we missed.

Tom,

Thank you for the edits. I incorporated them, with the exception of

Ex. 5 Deliberative Process (DP)

Will let you know when all comments are addressed,

Subject: Revised Prioritization HP RTC - for quick review and transmittal to OPPT IO

Hi Everyone,

Ana and Niva have addressed all the comments received from DDs and OGC. Things of note and requiring action from the divisions -

Ex. 5 Deliberative Process (DP)

The latest schedule for the RtC (and FRN) that Tanya shared with the OPPT IO has the document going to the OPPT IO/OCSPP IO for concurrent review by noon today. Rather limited time for DDs/OGC to do a quick review of the responses. So in the interest of a very small pit of sanity, every minute adds a little bit. Please provide any

revisions/comments no later than 1 pm today on the clean version and we will aim to send the RtC to the OPPT IO by 3 pm today.

Many thanks to Ana and Niva for keeping the RtC close to the crazy schedule!

Thanks, Joel
